About Child & Family Resources

Established in 1972, Child & Family Resources (CFR) is an organization that creates and delivers programs and services for the community that support the development of children and strengthen families. More than a quarter century of caring about children and families in New Jersey has enabled the organization to serve as the catalyst for partnerships between families, local businesses and their communities. For more information, visit Child & Family Resources online at www.childandfamily-nj.org or call 973-398-1730.

Core Services

39 Years of Quality Early Care and Education Services

Over the past 39 years, Child & Family Resources has served hundreds of thousands of families. CFR has brought millions of dollars in child care quality improvement initiatives, professional development training for educators, creation of additional child care programs, family child care provider registration, parenting education, and financial assistance for income-eligible families to New Jersey communities. The Child & Family Resources' staff have been a mainstay in our community, providing parents with information about available child care options, quality indicators to look for, and factors to consider when choosing a child care arrangement for their children.

Child & Family Resources is nationally recognized for the capacity to develop, implement, and manage pilot initiatives to improve the quality of services provided by community-based child care programs. It also serves as the state's child care resource and referral organization for Morris County.

Core services include:

- Child Care Resource & Referral
- Violence & Abuse Prevention Initiatives
- Parenting Education & Professional Development

Child & Family Resources Professional Development

The knowledge and skill required of an effective early care and education professional have increased as science has revealed more about the capacities of young children, how they learn best, and the importance of early learning for later school success. Continued professional development helps early care and education professionals provide developmentally appropriate care and activities for children.

Child & Family Resources' Early Childhood Education Professional Development Programs are designed to support professional development and improve the quality of early childhood and school-age programs.

Child & Family Resources is committed to providing high quality offerings aligned with national credentialing associations and state standards. Instructors are highly qualified, experienced, and registered with the Professional Impact New Jersey Instructor Approval System.

Visit our website www.childandfamily-nj.org to register for professional development workshops. Offerings are regularly scheduled, cover a variety of topics and emerging trends, and designed specifically for Directors, Supervisors, and Early Education Providers.

Setting a New Standard!

To ensure the training you receive from Child & Family Resources is accepted in this ever changing environment, Continuing Education Units (CEU) are awarded to all participants. What does this mean for you? Register as usual, there are no additional fees. Complete a Personal Learning Assessment Tool (PLAT) at the end of each workshop. *(If PLAT is not complete, with new knowledge identified, professional hours and CEU will not be issued.)*

Professional Development Programs—On-Site Programs

These workshops are conveniently presented at your location, during a time which best meets your needs. You can schedule an hour during lunch, an hour and a half staff meeting, or a two hour evening presentation. You decide!

Average on-site workshop fees*: \$200.00 for 1 hour workshop**
\$400.00 for 2 hour workshops**

Workshops can be created to meet your needs. These rates are subject to change.

***Book 4 workshops per year, in advance by contract, and receive a 10% discount!**

****up to 20 attendees, \$5.00 per each additional attendee**

Child Development Associate (CDA)

Child & Family Resources is pleased to be able to assist candidates with the training component of the Child Development Associate (CDA) credential. Our comprehensive 120 hour CDA training class is offered in four 10-week modules. The training is available for anyone interested in professional development as well as candidates seeking a CDA in a preschool, infant/toddler or family child care setting. Students receive mentor support from our highly qualified Early Care & Education Specialists. **Module 2 begins Monday, January 9, 2012 and Wednesday, January 11, 2012.** Contact Linda Smith at (973) 601-6145 for more information.

CDA (Child Development Associate) Renewal

Have you renewed your CDA? A CDA credential is valid for three years from the date of award, after which it may be renewed for five year periods. Child & Family Resources is currently offering CDA Renewal classes. **Classes begin January 2012.** Call Linda Smith at (973) 601-6145 to register NOW!

Parenting in the 21st Century

Led by our certified Parent Coach, these seminars are specifically designed to support parents in their critical role as their child's first teacher. Delivered in an inclusive discussion format, parents receive valuable information on such topics as behavioral challenges, child development milestones, and skill building.

Parent & Teacher Coaching

We offer parent coaching with Linda Smith, Certified Parent Coach ®

Why a Parent Coach? A parent coach works with parents in groups or individually to answer their parenting questions, help them find needed resources and guide their practices with their children. Parenting can be a difficult job and often having someone to talk to can make it easier. Coaching helps parents gain new ideas, progress towards their goals and become re-energized.

We also offer Teacher Coaching! "Teacher coaching" is being adopted by some school districts to enhance their teachers' instructional practices and improve student success. Often information obtained through workshops does not transfer to the actual classroom. A coach works directly with teachers to help them clarify information and objectively apply it to their individual situations. Through coaching teachers focus on what is developmentally appropriate. Through a generation of positive energy there is constructive sustained action towards goals, individual growth, group growth and more satisfaction in teaching in general! Child & Family Resources offers group and individual coaching for teachers and directors.

Consider starting a Parent Group at your center. Offer your parents an opportunity to discuss what challenges they face and how they can become reenergized and inspired to create a supportive family environment. If you would like to know more about parent coaching, teacher coaching, or creating a parent group, call Linda at 973-601-6145 or visit our website at www.childandfamily-nj.org.

Child Care Providers Your Guide to New Crib Standards

Beginning **December 28, 2012**, any crib provided by child care facilities and family child care homes must meet new and improved federal safety standards. The new standards take effect for manufacturers, retailers, importers and distributors on **June 28, 2011**, addressing deadly hazards previously seen with traditional drop-side rails, requiring more durable hardware and parts and mandating more rigorous testing.

What you should know...

- This is more than a drop side issue. Immobilizing your current crib will not make it compliant.
- You cannot determine compliance by looking at the product.
- The new standards apply to all full-size and non full-size cribs including wood, metal and stackable cribs.
- If you purchase a crib prior to the June 28, 2011 effective date and you are unsure it meets the new federal standard, CPSC recommends that you verify the crib meets the standard by asking for proof.
 - o Ask the manufacturer, retailer, importer or distributor to show a Certificate of Compliance. The document must:
 - Describe the product
 - Give name, full mailing address and telephone number for importer or domestic manufacturer
 - Identify the rule for which it complies (16 CFR 1219 or 1220)
 - Give name, full mailing address, email address and telephone number for the records keeper and location of testing lab
 - Give date and location of manufacture and testing
 - o The crib must also have a label attached with the date of manufacture

What you should do...

- All child care facilities, family child care homes, and places of public accommodation:
 - o Must prepare to replace their current cribs with new, compliant cribs before December 28, 2012.
 - o Should not resell, donate or give away a crib that does not meet the new crib standards.
- Dispose of older, noncompliant cribs in a manner that the cribs cannot be reassembled and used.
- Noncompliant cribs should not be resold through online auction sites or donated to local thrift stores. CPSC recommends disassembling the crib before donating it.

Preventing Child Abuse & Neglect

Over 3 million children are reported victims in the United States each year. The cost to respond to maltreatment of children in the USA is estimated at 9 billion dollars. Neglect is the highest form of abuse in our country today, this due to the high percentage of drug and alcohol abuse by the adults in their lives. Everyone living in New Jersey is a Mandatory reporter. That means if you suspect, have reasonable cause, witness an incident or a child has revealed an abuse to you – by law you must report. We can become partners in prevention, by informing and educating everyone about the maltreatment of children, the importance of supporting families and the importance of strengthening families.
